Corsham Area Community Partnership

Community Plan Update 2008/9

Corsham Area Community Partnership (CACP)

Corsham Area Community Plan Update 2008/9

The Corsham Area Community Plan was written by the Partnership in 2005 to reflect the current concerns, priorities and issues of those who live in, work in, and visit the Corsham area. Three years on in December 2008 the CACP revisited the community area to update this plan.

This is part of an important process to monitor the progress of the plan to date, identify the current issues and aspirations across the community area and create an evidence based document to influence the new Corsham Area Board as part of its important role within the structure of the new Wiltshire Council.

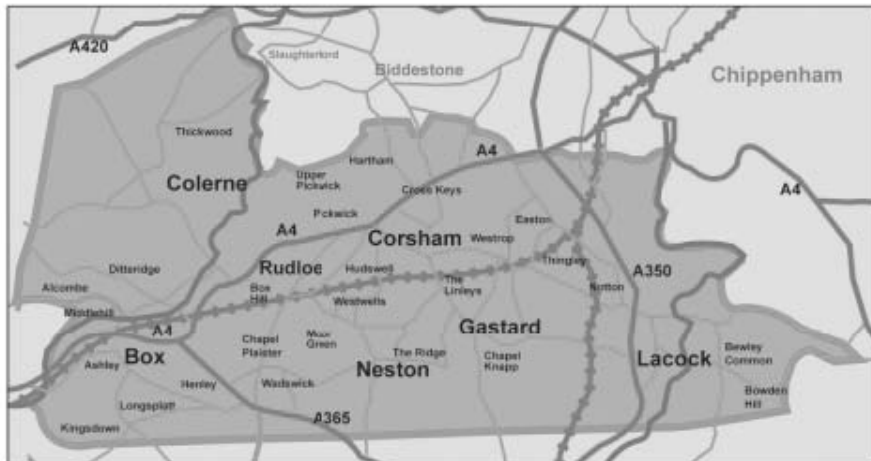

Using this powerful tool CACP hopes to be able to influence the priorities, spending plans and decisions which affect this Community Area as the new council takes effect.

Community Partnerships and Area Boards

Corsham Community Area consists of Corsham and the parishes of Box, Colerne and Lacock.

Wiltshire will comprise of 20 Community Areas. Each one will have its own Community Partnership to collect evidence of current issues and aspirations within their community and present it to the Area Boards.

Area boards will each comprise of the elected Wiltshire Council members within each Community Area and work with the Partnership and service providers to meet the needs of the Community Area they represent.

Plan Update 2008/9

The following documents and activities were used to provide evidence for the plan update:

- The Big State ' Roadshow' Community Engagement Events (1400 engaged Nov/Dec 08)
- Corsham Community Area Survey 2008 results (339 responses)
- Tomorrow's Voice Autumn 2008 Survey Results (1614 responses 11-18 across Wilts)

- State of Community Area 2008
- Box Parish Plan meeting 2009
- Colerne Parish Plan meeting 2009
- Wiltshire Council Community Area Analysis Jan 2009

A working party made up of members of the Partnership's Steering group collated the findings from the above documentation and grouped them under the eight themes which underpin the community strategies of the new Wiltshire Council.

The eight themes are listed in the order of priority based on the evidence considered and are marked High, Medium and Low. The Suggested Actions are recommendations from those involved in the consultation and the Partnership Steering group working party for the wider partnership to consider at their meeting on 21 April 2009.
